**This is where it all begins! In this one hour block we will work through your bag and identify a few key areas for you to work on. Before you go, you'll chat with your coach about your goals and they will help you set time specific objectives so you can play the best golf of your life.**

# **3 WAYS TO JOIN THE TRIBE THIS WINTER**

A group of people are gathered in a large, dimly lit room with a high ceiling and exposed ductwork. They are playing golf in a simulator room. The room features large projection screens displaying a virtual golf course with a green, a blue lake, and a white clubhouse. Several people are standing around the screens, some looking at the game, others talking. The room is decorated with warm, glowing string lights hanging from the ceiling. The overall atmosphere is social and recreational.
